The population of Sverdlov has steadily decreased in recent years, and it must be attributed to a lack of houses. Being in the city of Leningrad, the parish may now undergo development, but rapid growth cannot be expected unless land for housing purposes is available. The figures in the table frequently, it was pointed out, show the population in rural villages has diminished, but here in a village in the centre of a new district and in a city that has gone the wrong way.

## Garforth Picture House.

### OPENING CERIMONY.

There was a disappointment in Garforth on Tuesday night, when it was known that the new Picture House could not be opened then owing to the licence from the county authorities not having come to hand. A large crowd had gathered in anticipation of the opening. The building, which is erected on a site facing Station Road, is thoroughly up-to-date in every way, and is admirably adapted for the purpose. The hall, with its stage, is intended to be used for the purpose of giving musical and dramatic performances, and the arrangement is so good that a capital view of the pictures can be had from any part of the house. The walls are of brick and stone, and the interior is finished with the most modern and artistic touches. The stage is of a fine design, and the hall is of a fine design, and the hall is of a fine design.

## CORRESPONDENCE.

### KIPPA PARISH COUNCIL AND A RECREATION GROUND.

TO THE EDITOR.

Sir—I do not know whether our Parish Council is playing ball for the children near the summer-house. I have been in the effort of our village fathers have been well and enthusiastically engaged in the matter in days gone by.

Time goes along and nothing being done, our children grow up in the midst of darkness and gloom, and are not given to the recreation of the mind and body. We have no cricket in Kippa, and everybody wants to be in it, and that is the reason why the Parish Council is asked to have our order for three bottles of "Red Seal" the only order for "Red Seal."

The majority decided to discontinue the game. A football field and a cricket pitch for adults, as well as a playing field for the children, are the only order for "Red Seal."

In regard to one point, however, I am in thorough agreement with the author. The author says that the Church should not be introduced into Asia, and Temperance, with the exception of Russia, is not a foreign import. I say, first, that in the district, I believe, where this is done, it is possible in the case now, to appreciate the value of the temperance cause, and the Parish Council works with *Conscience* in the cause of temperance. I say, secondly, that the good food for the people, the good example of the temperance people, and the Home Ricks struggling for the cause of temperance, are all the more to be appreciated in the parish, and they are entirely lacking because the whole temperance cause is a foreign import. I am convinced that the cause of a Parish is not to maintain feebly the temperance cause, but to make it a *Practical-Banquet* *Ausgang*. Has been the case in the past, and it is the only way to fight on non-political lines, but they have not completely succeeded yet.

At the time, however, the world was in the grip of the nineteenth century, and the world was not yet ready to accept the new ideas that were being put forward. The world was still in the grip of the nineteenth century, and the world was not yet ready to accept the new ideas that were being put forward.

The magistrates present at this Court on Tu

Sagar Mulgrave, Messrs E. H. Foster,

Why?—Mr F. W. Mee, Clerk to Humble Boscawen, in conversation with a reporter was unable to give any particular local reason, in a time of booming trade, there the big men prosper, than there were five years ago, when the country was in the midst of the disastrous coal strike, which brought starvation to so many families. "For some time,"

said, "we have been experiencing a steady decline. I believe it is just the tendency of every country. So much is done for people now that they are looking for more, which they are willing to accept with an ever-decreasing degree of tolerance, until the old feeling that to accept parish relief was a stain upon the character is largely passed away. Pauperism, like everything else, lives by what it is fed on."

**ALLERTON BYWATER**  
**FOOTBALL**—A meeting of the Cup Committee of the West Riding Association was held on Tuesday night at the Grand Central Hotel, Leeds, Mr J. Connor presiding. The committee considered a protest from the Morley Club arising out of their match with Allerton Bywater in semi-final for the Junior Cup. It was also decided that Allerton Bywater included in their team a player named Wacley, who was ineligible.

PARISH MEETING.—The annual parish meeting was held on Monday evening in the Cow School.—Mr Walter Robinson presiding. The Clerk said that the Parish Council had over

in hand after paying all expenses in connection with the lighting of the village. It was stated that three additional lamps should be erected round by Leighton Station. Mr. Norman moved that the Clerk write the Gaslight Company asking if they would 'by gas main' as Mr. Eastwood's Farm in Brighthelm, L. and if a favourable reply was received the matter be proceeded with. This was seconded by Mr. Bland and passed. The Chairman said:

The work of the women, and all surplus pauper relief must be dealing

that so much water was wasted at Briggs, where the pressure was turned on water but up.—Mr Brown: It will be a fountain for No reduction was paid. Mr T, Longboat said that at Bowers Allerton the same price paid for gas as at Briggs, but a bonus allowed on the amount taken from the peapack meters. He moved that the Castle Gas Company should be asked to make a similar arrangement. This was seconded and adopted.

**BOWERS ALLERTON.**  
The average attendance at Bowers Allerton school during March was 93.11 per cent. against 93.31 in the corresponding period of last year.

**CROSSGATES**

In connection with the Primrose League waist drive and dance will be held in the Recreation Hall on Friday, April 12th. Lieut. Bow-

**Wesley Guild.**—The concluding meeting of the winter session of the Wesley Guild was held on Monday evening, and it took the form of a "rally." There was an excellent attendance, consisting of members from Lewis, Haddon, Kippax, and Crossgates Guilds. An invitation to a large number of Gushetby boys was accepted, and they were present in large numbers.

The meeting was presided over by Mr. Rippon, of Congrates, and he was supported on the platform by the Rev. Geo. Allen, of Niles, La., Rev. E. Bell, Congrates, and E. E. Ross, Garforth. the feathers. Finally, rinse the feathers  
thoroughly in clean water, with just a trace

are not under the law but in the Gospel. The Gospel supplies no rules or principles. Christ gives us no list of things to do on Sunday, and we are not bound to obey one. Christ did say that the Sabbath was made for man, and we must be free to use it to give to people facilities to remove hindrances to, and work there; it follows that it is good to give relief and rest from buying and selling on that day. At present the state of things is strange—enforcement of rest on non-Christians is admitted to be a necessary rest on Sunday—the great Church day is being destroyed. I hope the Church day is being destroyed. I hope the Church day is being destroyed. I hope the Church day is being destroyed.

The first thing to do is to remove the chrysantheums, and other trailing-growing plants. Liquid manure should be given about once a week to the plants. Continue to remove spent blooms from violas, pansies, geraniums, etc., and stir the surface soil of the plants. The plants will then be able to draw the food from the soil, and will give much improved returns if liquid manure is given freely. ## HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION.

By a STOMACH SPECIALIST.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to see that the commonest and most distressing complaint of stomach trouble possesses stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is acid in the stomach, usually due to, or aggravated by, food fermentation. Acid irritates the delicate lining of the stomach, and food fermentation causes wind, which causes bloating. These both retard and ferment the food, and irritate the stomach. Both retard and fermentation irritate most past endurance by the three forces—acids—acid and wind. In all such cases, the stomach is usually healthy and normal, and the difficulty disappears over 90 per cent. of the time after the first and only real remedy is neutralized. The remedy is to stop the fermentation by taking in a little warm or cold water immediately after eating, half a teaspoon

The death sentence passed upon Mary E. Beth-Bright (23), convicted of the murder of a four-year-old child at Bradford, has been commuted to penal servitude for life.

Due to the mistake of a printer at Dunedin, New Zealand, a number of "wines and spirits" cards were delivered to a Sunday school instead of redeemed pledge forms.

In the annual report relating to Irish agricultural labourers, it is estimated that the sale in 1912 of Irish labourers who migrated to New Zealand for the season approximated £150,000.

Although so close to Leeds, with its abundant supply, the villagers of Scholes and Barmick are in this position, and the question of a proper water supply has once again become an acute

The outcry comes chiefly from the occupants of new houses at Scholes, who have migrated from Lordsburg and who, having been used to an unlimited supply from the tap, seriously object to the new arrangement which requires them to fetch water from the wells.

There is reason to believe that when they whose pipes are within less than a mile from Scholes, would gladly extend their service, over the whole area, but the villagers see in such a step the thin end of the wedge of incorporation, and they are loth to share the fate of Cronogratz, when they know the ill-reckoned view that grounds up signs of

The district is within the Tadcaster rural area, and the District Council have endeavoured to meet the problem and provide a supply, but so far there has been no practical result, although some £1,200 have been spent in boring at Kiddall Lane. It is estimated that this boring would provide more than adequate supply, but there has been delay in carrying it out.

Mr. Ralph Wright, of Berwick, who is a member of both the Parish and Rural Councils, told a "Mercury" representative that

the position was no worse than it had always been when the summer happened to be dry. Generally speaking, the wells had not failed, and the villagers were not in any difficulty. The farmers in the outlying districts were suffering most, and in many cases they were having to cart water from a distance.
